[Entry Opst Download Cherry Mobile Flare 4](#)

---

Select the disk with 3 16GB size, click Credit goes to Ryan Rudolf Oba in Cherry Mobile Flare FB group CWM for CM Flare / Karbonn A9+ reformats boot partition, but instead of reformatting boot partition 8, it reformats boot partition 3.. MBN and AMSSHD MBN It does not contain IMEI info Your IMEI will be preserved if you will follow this guide accordingly.. Don't ask me where to get Acronis 2 Backup partition3 – make sure that the file you have is Partition3sector\_full\_b1\_s1\_v1.. BP Firmware Download AP Firmware Download Flare(S100) Driver Download Backup your ICS using Roadkill, turn off your flare and the press “Volume Down and Power Button at the same time, Once you see the Entry QPST Download, open Roadkill and click on “Store Image” tab.. Connect Flare to PC, install drivers if prompted Use the PCDRIVERS ZIP included with your Flare.

If the filename does not match, it means I did not provide that file There is a chance this will cause further damage.. I have also included it here 3 Open Acronis True Image (Picture1)4 Click on Backup and Recovery > Browse for Backup.. You will also need Acronis to restore this backup partition to your phone I used Acronis True Image 2013.

Requirements –1 Acronis True Image – The backup partition3 I will provide is created using Acronis.. Proceed with caution Steps –1 Power on Flare, it will show ENTRY QPST DOWNLOAD2.. When this happens, phone will not boot, even fastboot mode Upon powering the phone, you will get the message ENTRY QPST DOWNLOAD.. (Picture2)5 Navigate to where you saved the backup partition3 Press Add to Backup List.

To fix this, we need to restore a working backup of partition3 Partition3 is FAT16 partition and contains AMSS.
