ProWall: Volume 2

Professional Video Walls for Final Cut Pro X

ProWall Volume 2 lets user create professional video walls easily and quickly inside of Final Cut Pro X. This ProWall comes packed with 30 different customizable environments. Choose to curve drop zones, twist them, decide the spacing, rotation, and much more. The camera with each environment lets the user create any movement they want with zero keyframes. ProWall Volume 2 is made exclusively for Final Cut Pro X.

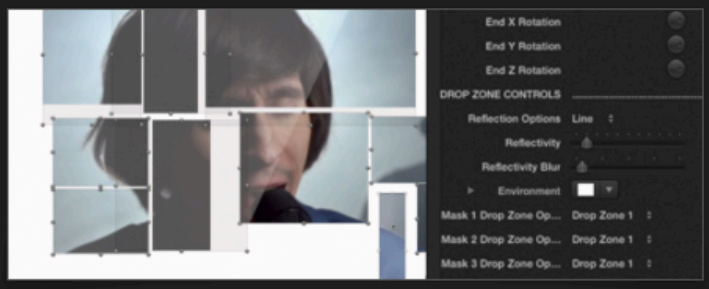
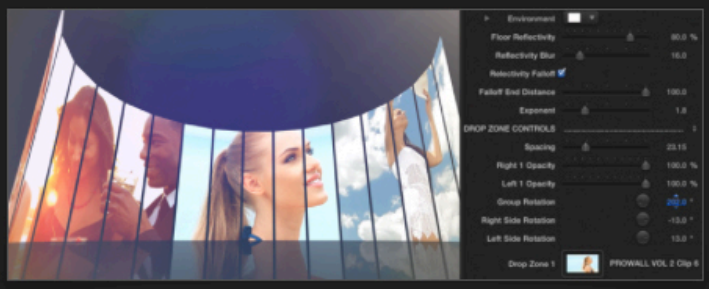
30 Customizable Walls

ProWall Vol 2 comes with many unique customization options. Choose to curve drop zones from side to side or up and down using a rotation wheel. Choose to add or subtract spacing in between the drop zones. Choose which drop zones stay on the wall and which ones won't and much much more.



Easy to use Controls

We've made sure it's easy to change any of the parameters inside of Final Cut Pro X. The user can change change many parameters using simply rotation wheels, sliders, pop-ups, on-screen controls, and more.



Overlays Included

With this bundle comes the different overlays used in the video. The user can choose from epic to fashion type overlays. Choose the bokeh overlay and controls the opacity, vignette, color adjustments, and more.

Amazing Camera Controls

ProWall Vol 2 comes with the ability to create any camera angle without any keyframes. Simply go to the first frame and use the start position controls to select where the camera starts. Then go to the last frame and user the end camera controls to choose where it ends. And ProWall will create a camera movement.
